Alcohol and Other Drugs Information

Annual Notice

2015- 2016

I. NOTIFICATION AND OUTREACH

In accordance with the Drug-Free Schools and Communities Act Amendments of 1989 and the Drug-Free Workplace Act of 1988, this notification is being sent to all Hobart and William Smith Colleges' students and employees. The purpose of this notification is to remind the campus community of: the Colleges' policies regarding Alcohol and Other Drugs (AOD); health risks associated with drug and alcohol abuse; the availability of treatment programs for drug or alcohol problems; and disciplinary sanctions under Colleges' policies, as well as penalties under federal, state, and local laws, for violations resulting from the illegal possession, use, or distribution of drugs and alcohol.

The Colleges are sharing this information to encourage responsible choices among the members of the Colleges' community, with the intention to encourage and support good judgment in the legal use of alcohol for those who choose to use it. The Colleges understand that alcohol abuse cannot be ended simply through strict rules and enforcement. We must establish reasonable policies, create programs that educate all members of the Colleges' community of the effects of alcohol use and abuse, and provide help for those who need it for themselves or others. We believe that environments that value moderation and responsible choice establish habits of respect for self and others in the use of alcohol and other substances that will likely carry forward throughout students' lives. It is toward this end that the following policies and guidelines have been established.

II. HWS' ALCOHOL AND OTHER DRUGS POLICIES

As an institution dedicated to higher learning, service, and preparing students to live lives of consequence, the Colleges prohibit the unlawful possession, use/abuse, or distribution of alcohol or illegal drugs by students and employees on Colleges' property or as part of any Colleges' activity. Because abuse of alcohol and other drugs is detrimental to the physical and psychological well-being of the campus community, the Colleges seek to educate students and employees about the dangers of drug and alcohol abuse and the importance of healthy and responsible choices.

Members of the Colleges' community are responsible for complying with federal, state, and local laws, as well as with

regulations of the Colleges regarding alcohol and other drugs. Students and employees who violate these laws or policies of the Colleges will be subject to criminal and/or institutional disciplinary action, up to and including expulsion or termination of employment and referral for prosecution. Ignorance of the law and the Colleges' policy is not an excuse for any violation.

The Colleges' Hearing Process and Sanctions for Alcohol and Other Drugs Policy Violations

Hobart and William Smith Colleges recognize the important link between intellectual growth within the classroom and the social and

emotional development that students experience in their daily lives. When students make choices that violate the Colleges' policies, an educational response is the ideal approach to help students to think about their options and the decision-making process.

However, when there have been incidents that place the student and/or others at the risk of harm, or when there have been repeated offenses, other steps, such as a referral to the Director of Alcohol and Other Drugs Prevention and/or the Center for Counseling and Student Wellness, might be necessary. In addition, some incidents may call for more traditional disciplinary action such as probation or suspension. When an incident involves violations of the alcohol and other drug policy and other policies, other sections of the *Handbook of Community Standards* will be invoked as well.

The Colleges respond to alleged violations of the *Handbook of Community Standards*, based on the severity of the incident, by assigning an incident to the Vice President of Student Affairs or his/her designees. In general, this may include the Hobart Student Court, the William Smith Judicial Board, residential education staff members, the Assistant Vice President of Student Affairs, the Vice President of Student Affairs, the Committee on Standards, or other members of the Student Affairs team. Based on the severity of the incident and the student's past behavioral record, a variety of sanctions can be applied, including (but not limited to) reflective assignments, residential re-assignments, social probation, deferred suspension, suspension, or required withdrawal. In all cases, an educational sanction will be required.

A. Group Accountability

Student groups that violate the Policy on Alcohol and Drugs face the possibility of the loss of privileges and/or funding, and the suspension or permanent withdrawal of the right to operate as a recognized student group. Similarly, recognized Greek-letter organizations that violate the Policy on Alcohol and Drugs face the possibility of the suspension or permanent withdrawal of recognition or other sanctions.

B. Disciplinary Sanctions and Responses

In addition to disciplinary sanctions which may be imposed, the Colleges may mandate an assessment and/or other educational measures as may be appropriate to safeguard the health and well-being

of the group, its members, and the larger community. In general, the educational responses may include:

- Alcohol and Other Drugs seminar
- Brief Interactive Screening (BASICS)
- One-on-One Assessment with the Director of Alcohol and Other Drugs
- FLACRA Referral

While sanctions will depend on the severity of the incident and past behavioral record, in some cases, specific sanctions will apply.

In cases where a student has been:	Sanctions will include, but not be limited to,
Medically transported for alcohol intoxication or drug use for the first time	<ul style="list-style-type: none"> • Educational sanction • Parental notification • Social probation <p><i>An additional transport within a 12-month period will require a required withdrawal for a minimum of one full academic semester or a medical leave of absence.</i></p>
Found to be in possession of cocaine	<ul style="list-style-type: none"> • Educational sanction • Required withdrawal for a minimum of one full academic semester
Found to be driving while ability impaired (DWAI)	<ul style="list-style-type: none"> • Educational sanction • Social probation through required withdrawal is a likely outcome • Upon return, parking privileges will be suspended
Has been found previously responsible for one AOD violation during the same semester (or consecutive 120 days)	<ul style="list-style-type: none"> • Educational sanction • Parental notification • Social probation for the remainder of the semester
Has been found previously responsible for two AOD violations during the duration of one academic year	<ul style="list-style-type: none"> • Educational sanction • Parental notification • Social probation for at least one semester

In cases where a student has been:	Sanctions will include, but not be limited to,
Has been found previously responsible for three or more AOD violations	Depending on severity of the incident, may include an educational sanction and: <ul style="list-style-type: none"> • Deferred suspension • Suspension • Permanent separation
Participating in behavior that suggests he or she is repeatedly unable to make healthy decisions about alcohol and/or other drug use, or the student engages in other practices associated with alcohol or other drugs that threaten the life, health or safety of him or herself, or others	<ul style="list-style-type: none"> • The Colleges may recommend a student to take a Medical Leave of Absence for Alcohol and Drug Use. This normally includes a provision for the student to receive care (medical, psychological, counseling, or therapy) while on leave. These procedures will follow the protocols outlined in the Medical Leave of Absence policy in the Community Standards. The Student Affairs staff will determine if all criteria have been met and if the student is eligible to return.

Student Affairs values the involvement of athletic staff in the judicial process: all coaches of student athletes may be notified of any violation of the Community Standards.

Sanctions of suspension or expulsion may be relevant in some cases and thus the guidelines above are simply to be used as general guidelines related to disciplinary sanctions. The Colleges reserve the right to assign any sanction to any violation.

Hearing bodies may also assign other sanctions, depending on the specific circumstances of the situation. Such sanctions are outlined in the Community Standards.

Medical Amnesty Policy

The Colleges recognize that when alcohol or other drugs are abused, the health and safety of students are the primary concerns. In situations where students call for help for themselves or another student needing

medical assistance due to intoxication, the student calling will not be subject to the Colleges' disciplinary procedures for the sole violation of using or possessing alcohol.

The student being transported is expected to complete an assessment with the Director of Alcohol and Other Drugs Prevention without being placed on social probation. However, repeated calls for medical assistance due to intoxication will result in disciplinary actions. Supporting students toward being successful, we will notify parents when medical attention is necessary. This is our part of our collaboration with the student, parents and necessary support services on campus and beyond.

III. FEDERAL, STATE, AND LOCAL LEGAL SANCTIONS

Existing federal, state, and local laws prohibit the possession, use, manufacture, and distribution of controlled substances. An employee or student who violates the Colleges' Alcohol and Other Drugs policies is subject both to the Colleges' sanctions and to criminal sanctions provided by federal, state, and local law. Degree and penalties vary depending upon the type of substance, amount of substance, prior record of individual and age of individual.

Federal Law

Violation of federal laws regarding illegal substances can result in substantial fines and imprisonment as well as forfeiture of property and denial of federal benefits, including financial aid. For more information, the Federal Trafficking Penalties table is attached as Appendix A (*page 17*) and can also be found online at <http://www.dea.gov/druginfo/ftp3.shtml>.

State Law

Alcohol offenses and penalties in New York State are defined by the Alcoholic Beverage Control Law and Penal Law. Under New York State law it is illegal:

- For a person under the age of 21 to consume alcohol or to possess alcohol with the intent to consume it.
- To sell, deliver, or give away alcoholic beverages to any person actually or apparently under the age of 21.

- To sell, deliver, or give away any alcoholic beverage to any intoxicated person or any person under the influence of alcohol.
- To sell, deliver, or give away any alcoholic beverage to any habitual drunkard known to be such to the person authorized to dispense any alcoholic beverage.
- To sell alcohol, including charging admission at the door of an event where alcohol is distributed free of charge, without and Alcoholic Beverage Control license.
- For any person under the age of 21 to present or offer identification of age which is false, fraudulent, or not his or her own, for the purpose of purchasing alcohol or attempting to purchase alcoholic beverages. It is also illegal for another person to misrepresent the age of someone under 21 for the purpose of helping the person under 21 obtain alcohol.
- To operate a motor vehicle with the blood alcohol content between .05 and .07 percent. This is known as “Driving While Ability Impaired,” or DWAI. “Driving While Intoxicated” (DWI) is defined by a blood alcohol content of .08 percent or greater, and is also illegal.
- For any person under the age of 21 who operates a motor vehicle while having a blood alcohol content of .02 percent or greater (a very low threshold).

The State of New York Penal Law (Articles 220, 221 and 178) define a wide range of offenses and penalties for possessing or distributing marijuana and other controlled substances. Sanctions include fines and imprisonment ranging from several months to life.

Local Ordinances

City of Geneva Ordinance §§ 69-4, 69-7. Under this ordinance, it is illegal for a person to drink or otherwise consume liquor, wine, beer or other alcoholic beverages while such person is in or upon any public sidewalk, street, highway, parking lot, bathing beach, public park or such other public place. It is also illegal for a person to carry or have in his or her possession, within the City of Geneva, any open bottle or open container containing liquor, wine, beer or other alcoholic beverage with the intent of the possessor or another to consume such beverages in any public places. A violation of

this provision shall be punishable by a fine not exceeding \$250 or by imprisonment not exceeding 15 days, or by both said fine and imprisonment.

City of Geneva Ordinance §§ 69-6, 69-7. Under this ordinance, it is illegal for any person under 21 years of age to possess any alcoholic beverage in a public place as defined by § 240.00 of the Penal Law of the State of New York, and any alcoholic beverage found to be in the possession of a person under 21 years of age in such public place shall be confiscated. A violation of this provision shall be punishable by a fine not exceeding \$250 or by imprisonment not exceeding 15 days, or by both said fine and imprisonment.

City of Geneva Ordinances §§ 236-13, 236-14, 236-15. This ordinance prohibits any responsible person from sponsoring, conducting, hosting, inviting or permitting a “nuisance party.” A “nuisance party” includes, but is not limited to, any social gathering held within the City of Geneva that results in unlawful possession of an open container; the unlawful sale, furnishing, dispensing or consumption of an alcoholic beverage; the sale or furnishing of an alcoholic beverage to an underage person; possession or consumption of an alcoholic beverage by an underage person; or unlawful possession, sale or use of a controlled substance. A violation of this provision shall be punishable by a fine not exceeding \$500, or imprisonment for 15 days, or both with a civil penalty to be recovered by the City of Geneva in a civil action or proceeding to recover cost of law enforcement, fire or other emergency response to a loud or unruly gathering.

Civil Liabilities

Dram Shop Liability. Any person who is injured by an intoxicated person has a legal right of action against anyone who has unlawfully sold alcohol to the intoxicated person or unlawfully assisted the intoxicated person in obtaining liquor. In any such legal action, the injured person has a right to recover both actual and punitive damages.

Social Host Liability. Any person who furnishes alcoholic beverages to an individual under the age of 21 is at risk of civil liability if the intoxication of the person under the age of 21 results in injury or damages to a third party.

IV. HEALTH RISKS OF ALCOHOL AND OTHER DRUGS

All drugs are chemical substances that affect both psychological and physical functioning. Health risks that may result from the use of illegal drugs include addiction, increased susceptibility to illness due to a less-efficient immune system, increased likelihood of accidents, increased likelihood of sexual assault and violence, impaired cognitive functioning (e.g., impaired memory, distortion of reality), and death. Most drugs are associated with risks specific to that drug, but examples are provided below.

Alcohol

Alcohol is an addictive drug that acts to depress central nervous system functioning. Although its effects vary among individuals, alcohol generally decreases alertness, impairs judgment, and reduces physical coordination and muscle control. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive or violent acts. Higher doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. People who consume larger quantities of alcohol can also experience blackouts and severely impaired mental functioning, including memory loss, depression, unconsciousness, respiratory arrest, coma, and death. If combined with other depressants of the central nervous system, much lower doses of alcohol can produce some of the effects just described.

Marijuana

- Disruption of space and distance judgment
- Slower physical reflexes and poor coordination; dilated pupils
- Forgetfulness & diminishing mental powers
- Drowsiness & mood swings

Cocaine/Crack

- Shortened attention span
- Impairment of judgment & decision-making ability
- Lack of dependability
- Mood swings, euphoria, irritability, depression
- Stealing to cover cost of drug

- Impaired judgment & lowered efficiency
- Drowsiness & mood swings
- Disinterest in classroom and campus safety
- Crime (stealing to cover cost of drug)
- Constricted pupils, impaired reflexes

Hallucinogens

(PCP, LSD, MDMA (Ecstasy), Designer Drugs)

- Loss of memory & concentration
- Sudden bizarre changes in behavior
- Moodiness & interpersonal conflict
- Pupil changes, may be dilated/constricted
- Visual and auditory hallucinations

Amphetamines

(Benzedrine, Dexedrine cross tops, whites, uppers;
Methamphetamines – crank, crystal)

- Dilated pupils
- Impaired reflexes
- Hyperactivity, irritability, anxiety, depression
- Increased accidents
- Impaired judgment & decision making
- Decreased appetite, weight loss, tremors

Sedatives

(Barbiturates; tranquilizers – Valium, Xanax; Seconal, Tuinal –

- Slowed reflexes & lower productivity
- Slowed mental processes & depression

- Slurred speech

Additional information about the effects of individual drugs may be obtained from Hubbs Health Center and the Center for Counseling and Student Wellness.

V. EDUCATIONAL AND COUNSELING PROGRAMS FOR ALCOHOL AND OTHER DRUGS

The Colleges provide educational programs and counseling services to address the issues of alcohol and other drug use. The Colleges' goals are to increase awareness, and to assist those in need of help, as in those potential instances of addiction, chemical dependency, and other negative consequences resulting from use or abuse of alcohol and other drugs.

Educational outreach is offered throughout the school year by the Director of Alcohol and Other Drugs Prevention, Residential Education, The Center for Counseling and Student Wellness, and various offices and organizations including athletics, Student Activities, and fraternity houses. Courses in a variety of disciplines (e.g., biology, chemistry, philosophy) also provide academic discussion of alcohol or other drug use.
